Please respond in depth to the following interview questions. Faculty who review your answers will be evaluating your writing skills as well as your answers. Please answer the questions using Microsoft Word document and submit your responses via email as directed. Evaluators will use a scale of 0 (not acceptable) to 4 (excellent) to score each response.

1. Describe the concept of population based health.

2. Describe an experience when your leadership made a positive impact on your clients, their families, your work group or organization.

3. Discuss how you envision the DNP will enhance your knowledge, skills and abilities as a nursing leader.

4. Describe the community or population group that you consider your primary interest, including any nursing experiences you have had with these groups.

5. Identify a health issue for the community or population you identified in question 5 that you may consider addressing as your research or project during graduate school.

6. Describe how obtaining a Doctor of Nursing Practice in advanced population health nursing will facilitate meeting your career goals.

7. Additional Comment (NOT SCORED):
   In order to best assess the “fit” between your desired direction and what the WSU College of Nursing can offer, please explain why you chose WSU as the university where you would like to pursue your DNP degree, and which College of Nursing faculty members share your population interests. Information on College of Nursing faculty research interests and areas of expertise can be found here: [http://nursing.wsu.edu](http://nursing.wsu.edu)
